There is one thing that is just as important as your tithe and your Promise. Your envelope. Yup, the envelope in which you put your tithe and Promise, may be virtual or a regular one. You may think this is a strange affirmation, but stay with me!

While some church members prefer to remain anonymous regarding to how much they give to church, filling out your envelope is crucial for 3 reasons:

You know that the amount you gave as tithe can only be considered God's tithe if it is [1] 10 percent of your income, [2] if it is brought to the right place (the biblical storehouse), and [3] it is applied according to His specific direction—exclusively for the support of the approved ministry [Num. 18:21, 24]. But if you don't stipulate on the envelope that what you are delivering is God's tithe, the church's treasurer may record it differently, delivering it to another destination. It would then no longer be tithe.

So, as you return your tithe and give your Promise, remember to include your personal information on the virtual or regular envelope, entitling yourself to receiving a receipt; beyond sending your tithes to the place established by God, which is His Storehouse, remember to identify God's tithe or Promise, assuring that the funds will reach the correct destination. One that was established by the Lord.

May we put our desires last and God first.
