Did you ever question yourself about the act of tithing?

Why do I tithe? Who says I have to tithe? When was tithing originated? Is it something the church created? Does it have to be 10%? What if I want to give more? Or less?

Motion graphics and illustrations.

sc. **02**

Well just like marriage and the Sabbath, tithing is not a church creation. It was established by God for all humanity. It was a common practice even before there was a Jewish nation. Abraham and Jacob returned their tithe. Check out Leviticus 27:30, 32.

But how can I be sure that the tithe is ten percent of my salary or ten percent of our all our income?

Motion graphics and illustrations.

sc. **04**

The word 'tithe' is a translation from the Hebrew word 'maaser' which means "a tenth" or ten percent. Not more, not less. Ten percent! So, any other percentage cannot be called 'tithe;' it is very important for the believer to regularly verify his income or increase, from any source, recognize it as a blessing from God and calculate the exact amount that represents one-tenth of the blessing.

## AUDIO

SC. **05**

As you return your tithe and give your Promise, open your heart to Jesus, asking Him for the strength to remain loyal even troubles and human feelings try to get you out of track.

SC. **06**

May we put our desires last and God first.
